

Inventors Manual How to Work a Patent to Make It Pay

Filesize: 6.18 MB

Reviews

Just no words to explain. Indeed, it is actually play, nevertheless an amazing and interesting literature. Its been written in an exceptionally simple way and is particularly simply following i finished reading through this ebook by which in fact altered me, alter the way in my opinion.
(Leilani Rippin)

INVENTORS MANUAL HOW TO WORK A PATENT TO MAKE IT PAY

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 98 pages. Original publisher: Gaithersburg, MD : U. S. Dept. of Commerce, Technology Administration, National Institute of Standards and Technology, 2005 OCLC Number: (OCoLC)70786903 Subject: Data encryption (Computer science) -- United States. Excerpt: . . . December 2005 Implementing Cryptography NIST has a long history of participation in industry standards groups, including the American National Standards Institute (ANSI), International Organization for Standardization (ISO), Institute of Electrical and Electronics Engineers (IEEE), Internet Engineering Task Force (IETF), and others. In some cases, the Federal government adopts industry standards, and in other cases, industry has adopted NIST standards, recommendations, and guidelines as industry standards. 2. 1 Benefits of Standards Standards are important because they define common practices, methods, and measures metrics. Therefore, standards increase the reliability and effectiveness of products and ensure that the products are produced with a degree of quality. Standards provide solutions that have been accepted by a wide community and evaluated by experts in relevant areas. By using standards, organizations can reduce costs and protect their investments in technology. Standards provide the following benefits: Interoperability. Products developed to a specific standard may be used to provide interoperability with other products that conform to the same standard. For example, by using the same cryptographic encryption algorithm, data that was encrypted using vendor As product may be decrypted using vendor Bs product. The use of a common standards-based cryptographic algorithm is necessary, but may not be sufficient to ensure product interoperability. Other common standards, such as communications protocol standards, may also be necessary. By ensuring interoperability among different vendors equipment, standards permit an organization to select from various available products to find the most cost. . . This item ships from...
