

Concur 92: Third International Conference on Concurrency Theory, Stony Brook, NY, USA, August 24-27, 1992. Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 586 pages. Dimensions: 9.2in. x 6.1in. x 1.4in. This book contains a selection of research papers describing recent advances in the theory of concurrent systems and their applications. The papers were all presented at the CONCUR 92 conference, which has emerged as the premiere conference on formal aspects of concurrency. The authors include such prominent researchers as R. Milner, A. Pnueli, N. Lynch, and V. R. Pratt. The results represent advances in the mathematical understanding of the behavior of concurrent systems: topics covered include process algebras, models of true concurrency, compositional verification techniques, temporal logic, verification case studies, models of probabilistic and real-time systems, models of systems with dynamic structure, and algorithms and decidability results for system analysis. A key feature of CONCUR is its breadth: in one volume it presents a snapshot of the state of the art in concurrency theory. As such, it is indispensable to researchers - and would-be researchers - in the formal analysis of concurrent systems. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

Definitely among the best publication we have possibly read through. I really could comprehend everything using this published eBook. It's been written in an exceedingly straightforward way and it is simply after I finished reading through this eBook through which basically altered me, change the way I believe.

-- **Mr. Malachi Block**

Comprehensive information for book fans. It is one of the most amazing books I actually have read. Once you begin to read the book, it is extremely difficult to leave it before concluding.
