Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

For too long, educators have focused only on getting students ready for the next test, for the next grade, for graduation, or maybe for college. Students must be prepared to succeed in school, and they must know how to read, write, and calculate. But that s only the beginning. Our job-whether we teach kindergarten, 5th grade, or high school or we lead a school or district-is to prepare students for success in the real world. To do so, we must also teach grit. Grit is a combination of tenacity and perseverance-a willingness to take risks even if it means sometimes failing and starting again. Knowing how to respond to frustration and failure is essential whether a student struggles or excels. Veteran school leader and popular Educational Leadership columnist Thomas R. Hoerr shows what teaching for grit looks like and provides a sample lesson plan and self-assessments, along with a six-step process applicable across grade levels and content areas to help students build skills they need to succeed in school and in life.
