Pub Date: October 2012 Pages: 299 Language: Chinese in Publisher: Peking University Press 21st century talent cultivation of innovative applications of all institutions of higher material planning materials: metal forming the theoretical basis the casting forming principle and welding metallurgy the principle of the organic integration of the two parts. mainly solidified molding. welding molding process inherent laws of physical nature and method of analysis issues forth. so that students have a more in-depth understanding of the basic principles of the liquid molding process for subsequent courses learning to lay a theoretical foundation. The book is divided into 10 chapters. independent of each other as separate chapters. such as the structure and properties of liquid metal. the selection of welding materials. welding joints. and performance; Communist China of solidification forming and welding molding together . such as the temperature field. solidification. thermodynamics and kinetics of the formation of macro-organization and control. defects in the coagulation process and quality control. 21st century talent cultivation of innovative applications of all institutions of higher material planning textbook: Metal Forming theoretical basis is written for material forming and control engineering undergraduate textbooks. but also as metallurgy. casting. welding and other professional engineering The technical staff of the reference book. Contents: 0.3 Introduction 0.1 Metal Forming concepts and methods 0.2 Metal Forming the status and role of the nature of the course and tasks Chapter 1 Structure and Properties of the liquid metal 1.1 liquid metal structure 1.1.1 liquids and solids. gases comparison 1.1 flowability and filling ability of the liquid metal of the viscosity of .2 liquid metal structure of the X-ray diffraction analysis of the structural characteristics of the liquid metal...
